Field Operations | Advanced Technologies

UTILITIES, WATER AND TELECOM

Agenda

- Overview Technology Overview
- Demonstration Productivity Tools
- Demonstration Artificial Intelligence
- Demonstration Using Imagery
- Demonstration 3D Visualization
- Review & Questions and Answers

Field Operations | Advanced Technologies

UTILITIES, WATER AND TELECOM

Field Operations | Advanced Technologies

UTILITIES, WATER AND TELECOM

Productivity Tools

1

Artificial Intelligence

2

Using Imagery

3

3D Visualization

4

Field Operations | Productivity Tools

UTILITIES, WATER AND TELECOM

1

Productive field tools leverage the worker's **skill** and **knowledge** and minimize repetitive tasks.

- How can staff avoid typing?
- How can tools remain aware of context?
- How can staff be kept aware in real-time?

Field Operations | Advanced Technologies

UTILITIES, WATER AND TELECOM

Productivity Tools

Pat Hohl

- Minimal typing
- Location awareness
- Alerts and notifications

ArcGIS
Dashboards

for ArcGIS

Field Operations | Artificial Intelligence

UTILITIES, WATER AND TELECOM

2

New computing capabilities **find** patterns and **identify** important features allowing staff to **focus** expertise where most needed.

- How can staff use advanced techniques in normal work?
- How can workers easily find what is important?
- How can staff plan ahead for field conditions?

Demonstration | Artificial Intelligence

UTILITIES, WATER AND TELECOM

Michael Dendinger

Artificial Intelligence

Pat Hohl

- Improve normal work
- Find the important
- Plan ahead

ArcGIS Pro

Field Operations | Using Imagery

UTILITIES, WATER AND TELECOM

3

Imagery from satellites, aircraft, or drones shows conditions where access is **difficult, time consuming**, or presents **safety** concerns.

- How can field staff leverage artificial intelligence?
- How can crews inspect tall infrastructure safely?
- How can staff examine energized equipment?

Demonstration | Using Imagery

UTILITIES, WATER AND TELECOM

Michael Dendinger

Field Operations | Advanced Technologies

UTILITIES, WATER AND TELECOM

Using Imagery

Pat Hohl

- Leverage A.I.
- Increase safety
- Keep equipment in service

ArcGIS Pro

Field Operations | 3D Visualization

UTILITIES, WATER AND TELECOM

4

3D visualization improves understanding of field conditions in the real world.

- How can job planning be improved?
- How can staff conduct training away from hazards?
- How can safety begin before arriving on site?

Demonstration | 3D Visualization

UTILITIES, WATER AND TELECOM

Ben Segal

3D Visualization

Pat Hohl

- Job planning
- Familiarization training
- Increased safety

Field Operations | Advanced Technologies

UTILITIES, WATER AND TELECOM

Wrap up
